Comprehensive monitoring and alerts

Allstate Identity Protection's monitoring system analyzes and detects high-risk activity and sends alerts at the earliest sign of fraud. That's how we help members minimize risk, damage, and stress with prevention and rapid restoration.

Dark web monitoring

We go beyond simply scanning for your information online. We utilize bots and human intelligence operatives together to scour closed hacker forums for members' compromised credentials as well as personal information. We alert members whenever compromised data is found, including:

- Social Security numbers
- Email address
- Usernames and passwords
- Credit and debit card numbers
- Government and medical ID numbers
- IP addresses
- Gamer credentials

Financial transaction monitoring

Members can set alerts to trigger from sources including bank accounts, credit and debit cards, account thresholds, 401(k)s, and other investment accounts to help take control of their finances.

High-risk transaction monitoring

Even non-credit-based activity can indicate fraud, so we send alerts for transactions like wire transfers and electronic document signatures matching member information.

Social media account takeover monitoring

Members can add social media accounts for themselves and family members to be notified of suspicious activity that may indicate hacking or an account takeover.

Credit monitoring and alerts

Members can set alerts for transactions like new credit inquiries, accounts placed in collections, newly opened accounts, and bankruptcy filings.

Credit assistance

Should a member's credit monitoring trigger an alert, our in-house team of experts will help freeze files with all major credit bureaus.

Identity Health Status

Our unique tool gives members a snapshot of their identity health and risk level. We provide monthly status updates using an enhanced algorithm with deep analytics to spot fraud trends and alert members before damage occurs.

It's your digital
identity. Own it.

Allstate Security Pro®

We help keep members one step ahead of bad actors by providing real-time, personalized content about heightened security risks that may affect them. Our alerts leverage internal data to identify emerging threats, how members may be affected, and what steps they can take to better protect themselves.

Fraud restoration tracker

The Allstate Identity Protection identity restoration tracker makes it easy for members to see their case status.

\$1 million identity expense reimbursement†

Members who fall victim to identity fraud will be reimbursed up to \$1M for stolen funds as well as many out-of-pocket costs related to resolving their case, including:

- Expenses incurred resolving:
 - Home title fraud
 - Professional fraud

 - Unemployment benefits
 - Stolen tax return refunds
- Up to \$50K reimbursement for HSA, 401(k), 403(b), and other investment accounts

Lost wallet protection

Members can store critical information in the secure Allstate Identity Protection portal to retrieve in the event of losing credit cards, personal credentials, or documents. We help members access this information and replace it, if needed.
